How to Grow a Poem From a Seed

The seed is the idea for the poem. You can start with anything like:

- Color(s)
- Favorite animal
- Something in nature like a tree or flower
- A person
- What do you see right now?

Next, add some leaves......

How does your seed idea look, taste, smell, feel, sound? What does it do?

Yellow
Makes me happy, And warms my heart, With an explosion Of bright and tart.

Now put it all together into a flower, your poem!
